How to use Google Classroom on Xbox One & Xbox Series X/S

Xbox consoles have access to Microsoft Edge - the web browser that comes preinstalled as part of the Xbox. This can be used to access Google Classroom.

1. Press the Xbox button top-centre of a game controller and head to "My games & apps" in the side menu.

2. Click on "See all", scroll down to "Apps" and you will see Microsoft Edge in the icons on the right-hand side. Open it.

3. Type classroom.google.com into the URL bar at the top and log in as you would on a PC using your school account.

5. You can either use an Xbox controller to move the cursor or a separate USB mouse plugged into one of the other ports.

How to use Google Classroom on PS4 & PS5

Playstations have their own web browser that is easy to find on the PlayStation 4 (in the content menu as an icon with WWW written on it).

1. In the URL bar of the browser, type classroom.google.com and then log in using the details provided by Bromstone.

1. You can now access Google Classroom.

In some cases you might not be able to do everything you can on a laptop or PC, but you can, at the very least, access Google Classroom and see what word your teacher has assigned for you to do.
