

Why is our Environment so Special?

Home Learning Ideas

1. Record how you recycle by making a poster.
2. Draw the animals and plants you spot in a garden or at the park over a week.
3. Take photos of your favourite place and write why it's special.
4. Design a junk model of a robot using recyclable rubbish.
5. Go to your local library and find some books about the environment to research ways you can help.
6. Grow and look after a plant in your house or your garden.
7. Write a poem that captures what makes our environment so special.
8. Challenge yourself to walk, cycle or scoot instead of using a car.
9. Design a machine that helps care for the environment.
10. Spread some wild flower seeds around your local area.
